

Laboratory Rotation Request Form

Please list below, in order of preference, four labs where you would like to work during the rotation periods.

The rotation choices within your home department are to be made after having talked with the faculty and in consultation with the Director of Graduate Studies and the potential rotation lab principal investigators.

This form is to be submitted to the Director of Graduate Studies at least one week before the first rotation period is scheduled to begin. Please note that final assignments of lab rotations will be made by the graduate committee and sent to you by Friday before the rotation period starts on the following Monday.

1. _____
2. _____
3. _____
4. _____

Procedures for choosing rotations after the first vary for each department, please follow the guidelines as outlined by your DGS.

This form is to be returned to Director of Graduate Studies at least one week prior to the start of the rotation period.
